Chief, Engineering Division, OC

Acceptance of Partial Delivery on Spare Parts, Contract ND-91SA

1. In April of 1956 six [] video amplifiers of four megacycles bandwidth, per design as of 3-15-56 were delivered to this Office on a loan basis, in accordance with [] engineering shipping papers number GDE-713840. In July of 1956 ten additional amplifiers of identical design as described above were delivered to this Office.

2. Because of the critical operational requirement for these particular items, normal test and inspection were waived and distribution was made to the project concerned.

3. This memorandum therefore, constitutes acceptance of the sixteen amplifiers as partial delivery against spare parts item 2 of Contract ND-91SA. It is requested that [] be advised of this action, so then inventory adjustment of deliverable items on this contract may be corrected.
